Recommendation Letter for Mr. Guillermo Hoyo Bravo

Mr. Guillermo Hoyo has been my student in the subject "Communications Networks" during the past academic year. Guillermo obtained outstanding grades and high performance. On the other hand, he shows a very good attitude and good personal communication skills, and is usually participative and proactive in class work. He has always been kind and considerate to his classmates and teachers. In addition, I had the opportunity to observe in him a great interest in foreign languages and cultures.

During the lab classes, he has also demonstrated excellent programming skills in both C and Python languages.

In summary, in my opinion Guillermo is an excellent candidate, and I support his aspirations to obtain this position without any reservations. I highly recommend him as a student and commend his caring character.

Yours sincerely,

Dr. Oscar Delgado-Mohatar
Associate Professor
Head of UAM - Grant Thornton Blockchain Chair
Computer Science and Engineering Department
Autonomous University of Madrid
