Vulcanus Programme Committee
EU-Japan Centre for Industrial Cooperation

To whom it may concern:

I am Carlos M. Alaíz, Assistant Professor at Universidad Autónoma de Madrid. With this letter, I would like to recommend Mr. Guillermo Hoyo Bravo for the *Vulcanus Programme*.

Mr. Hoyo is my student in the subject Advanced Methods in Machine Learning of the Master's Degree in Data Science. During this course, he has shown a great attitude, good personal communication skills, and a high interest in looking for international opportunities to continue with his professional formation while getting to know foreign languages and cultures.

For all the reasons above, I strongly support his application for the mentioned programme. I am at your complete disposal for any additional clarification.

Sincerely yours,

Carlos M. Alaíz

Carlos M. Alaíz.
